

Please respect our privacy and support New Jersey's Do Not Call list. It is NOT too restrictive. It has been a pleasure not having the phone ring constantly with companies calling to pitch their products. I also wish you would eliminate the political and fund raising calls. Inside my home I should be allowed to choose whether I wish to allow these calls or NOT. In the land of the free, I choose to not let these people call and annoy me in my home. I appreciate being given that opportunity with New Jersey's DO NOT CALL list. Thank you for the chance to express my thoughts.
Ken Cooper
